EXPERIENCE

- Data Analyst Intern | Digital 360 (Dehradun, Uttarakhand, India)** 06/2026 - Ongoing
- Supported full-stack development in Python, Next.js, and React while independently designing an analytics solution to monitor SEO performance and lead conversion metrics for education consulting clients.
- PowerBI-Business Intelligence | Microsoft Elevate-AICTE Internship** 02/2026 - 03/2026
- Developed an interactive Power BI dashboard to analyze the sales data, deriving insights on product performance, customer segments, and regional trends using DAX and data modeling.
 - Evaluated the impact of discount strategies and shipping methods on profitability, sales, enabling data-driven insights into operational efficiency and revenue optimization.
- Data Analyst Intern | M/s Jio Digital Fibre Pvt. Ltd (Bhopal, Uttarakhand India)** 02/2025 - 03/2025
- Analyzed sales and operational data from datasets with over 10,000 records, applying statistical methods to identify patterns and improve data accuracy by 15%, leading to more reliable business insights.
 - Performed extensive data cleaning and preprocessing on large datasets using Pandas and NumPy, handling missing values, duplicates, and outliers, increasing data processing efficiency by 25%.
- Data Science Intern | Labmentix** 05/2025 – 07/2025
- Applied techniques including data cleaning (85K+ missing values), time-series forecasting, customer segmentation, anomaly detection, and market basket analysis to generate business insights.
 - Designed interactive dashboards using Power BI, Matplotlib, and Seaborn, enabling cross-domain decision-making across e-commerce, fintech, fitness, and retail sectors — enhancing operational efficiency and user experience.

PROJECTS

- Property Price Analysis Prediction - [Github](#)** 11/2025 – 11/2025
- Performed initial data analysis and feature engineering and deployed a full stack app with FastAPI backend and Streamlit frontend for real time predictions, R-squared value of 0.575 across 5 engineered features.
 - Deployed interactive property valuation system supporting 3 neighborhood categories (Urban/Suburban/Rural) via one-hot encoding with automatic price tier classification.
- Plant Disease Detection Using Machine Learning - [Github](#)** 11/2024 - 03/2025
- Architected a plant disease detection model leveraging MobileNetV2 architecture, achieving >90% validation accuracy across 38 distinct plant disease classes, optimizing for both precision and recall.
 - Implemented a custom image preprocessing pipeline, handling 5,000+ annotated plant images, including resizing, normalization, and augmentation, which improved model training efficiency and reduced overfitting by 15%.
- PhonePe Transaction Analysis - [Github](#)** 06/2025 – 07/2025
- Developed a python-based data ingestion pipeline to recursively extract and normalize nested json files from structured folders (aggregate, map, top) for pan India digital transaction analytics.

SKILLS

Languages and Frameworks: Python, C++, Java, MySQL, Javascript, HTML CSS, ReactJS, NodeJS, TailwindCSS, FastAPI

Tools and technologies: PowerBi, Microsoft Excel, Git, Pandas, Numpy, seaborn, Tensorflow, scikit-learn

Machine Learning: NLP, Computer Vision, Artificial Intelligence, RAG (Retrieval Augmented Generation)

Core Subjects: Computer Networks, Operating Systems, Database Management System, Cloud Concepts

EDUCATION

Bachelor of Technology Computer Science and Engineering (CGPA 8.19) **Vellore Institute of Technology, Bhopal** 2021-2025
Class XII Science + Maths (90.50%) **International Public School, Bhopal** 2020-2021

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – [Oracle](#)
- Oracle Cloud Infrastructure 2025 Certified Data Science Professional – [Oracle](#)
